Installers & User guide
Deadbolt 2S Metal Grey.

igloohome

Hi there!

We're so glad you've decided to join us on this journey to create a world without keys. You're officially an igloohomie!

In this guide, you'll find everything you need to get started with your lock. We hope that we've been as comprehensive and informative as possible. Afterall, we're here to make life easier for you (at least when it comes to your home's access).

If you do not find what you're looking for, we're working on updating it. Or... you could reach out to us at support@igloohome.co because we love interacting with you! Speaking of interaction, let's stay connected regardless. Why don't you join the community of igloohomies worldwide?

Specifications

|	
Model	IGB4
Weight	Net: 1.2kg, Gross: 1.6kg
Body	Zinc Alloy, ABS, Acrylic
Modes of Access (Entry)	PIN codes, Bluetooth keys, Mechanical keys
Modes of Access (Exit)	Thumbturn
Power Type	4 AA alkaline batteries
Battery Life	Up to 10 months
Emergency Power	9V Alkaline Battery
Battery Operating Temp.	–20°C to 54°C / –4°F to 129°
Operation Temp.	–25°C to 50°C / –13°F to 122°F
Certifications	IP65, CE, FCC, Giteki, ANSI Grade 2
Protocols	Bluetooth 4.2, algoPIN™ technology
Usage	Advised to be installed under sheltered areas, not to be exposed to wet weather conditions.

Note: If your BT ID is greater than IGB412 please skip this step, Left/Right Hand installation will be configured in the App.

2 **Remove Battery Cover from the Back Assembly**

Top View of Battery Cover

Press the button on the top of the battery cover, and pull outwards.

igloohome
Installation Instructions

1 Measure

If you are replacing your current deadbolt lock, industry standards are 60mm (2.36") or 70mm (2.75") backset. To determine which backset length you should use, so measure the distance (x) between the center of 54mm (2.12") hole to door edge.

54mm (2.12") Hole

X
Prepare bolt assembly based on the distance (x)

Bolt ships with bolt assembly in 60mm (2.36") position. If required, twist the bolt and pull to extend (simultaneously) to 70mm (2.75") backset position.

1 Twist upwards

2 Pull

3 Twist downwards to lock backset position
2 **Insert bolt and front assembly into door edge**

The '+ ' hole on the backset should be in the middle of the hole.

Screw Holder

Screws

c 15mm (0.59")
⚠ Please ensure that tailpiece is in vertical position.

3 **Measure and cut the tailpiece if necessary**

After inserting the tailpiece, measure the distance of protrusion from the door.
Notch

Door thickness (mm)	No. of notch to cut
60	0
55	1
45	2
40	3
35	4

Note: If your BT ID is greater than IGB412 please skip this step, Left/Right Hand installation will be configured in the App.

4 **Secure the Front Assembly using the Back Plate.**

To do this, place the Back Plate (ensuring the correct side placement).

Follow this orientation
Screws

d 43mm (1.69")

5 **Door Sensor Installation**

Adjust the position of the door sensor according to the door handling (left or right hand installation). Use the 2 x 5mm (0.19") screws to secure the door sensor to the back plate.

Right-hand Installation   **Left-hand Installation**

⚠ Do not overtighten the screws
Screws

e 5mm (0.19")

6 Fit in the Rubber Gasket

Insert the front assembly cable through the rectangular hole on the rubber gasket.
The hole should be on the right side of the rubber gasket.

Door Sensor Cable goes through the arched hole on the Rubber Gasket
Assembly Cable

Right-hand Installation
Left-hand Installation
7 Connect Assembly Cable

Connect the sensor cable to the Back Assembly then connect the assembly cable from the Front assembly through the 54mm (2.12″) hole to the Back Assembly. Ensure that the wire is installed properly and securely.

App Onboarding

1 ## Download the igloohome app

The mobile app is available for free on the App Store and Google Play Store!

App Store

Google Play

2 ## Register for an igloohome account

1) Launch the igloohome app and tap **[Create new account]**
2) Fill in the fields shown on the screen.
3) Accept the terms of services and privacy policy.
4) Tap **[Create account]**.
5) Enter the 6-digit OTP sent to your email address.
6) Tap **[Verify]**.
7) You now have a verified igloohome account!

If you have forgotten your password,

1) Visit the login page and select **[Forgot password?]**
2) Enter your registered email address.
3) Press **[Submit]**.

You will receive an email with a link and instructions on how to reset your password.

3 **Pair the lock to your account**

If you're completely new to igloohome:
Test the lock with the Factory PIN code before you begin the pairing process.

1. Wake the lock up by pressing the touchscreen keypad.
2. Tap ↩, then enter 1234567890, followed by 🔓.
3. The LED indicator on the lock will flash green when it is successfully unlocked.
   You will also hear four ascending tones.

a) Create a property to associate your lock with.
   1. Tap on ≡ and select **[Add and manage].**
   2. Tap on **[Manage Properties].**
   3. Tap the **[+]** icon.
   4. Input the name and region of the property, and
   tap **[Submit]**.

b) Pair the lock to your account.
   1. Tap on ≡ and select **[Add and manage].**
   2. Tap on the **[<]** icon.
   3. Tap on **[Add Lock].**
   4. Select the property you created.
   5. Follow the instructions on the screen.
If you're pairing the lock to an existing igloohome account:
   1. Tap on ≡ and select **[Add and manage].**
   2. Tap on **[Add Lock].**
   3. Select the property.
   4.Follow the instructions on the screen.

PAIR LOCK TO APP

Let's pair your lock

Please do not shut the keybox until it has been paired.

Next

4 **Change your Master PIN code**

The Master PIN code is automatically set after your lock is successfully paired to your igloohome account.

This PIN code is unique to your lock. It will always work as long as the lock is paired to your account.

You can customise this to something that is easier for you.

Before you do this, ensure you are within Bluetooth range of the lock and your Bluetooth function is turned on.

1. On the igloohome mobile app, tap on the ⊲ icon.
2. Tap on **[Master PIN Code].**
3. Tap on ✎ and enter a new 7 – 9 digit PIN code.
4. Enter the new PIN code again.
5. Tap **[Confirm].**

Managing Access via the app

1 ## Creating Guest PIN codes

There are **2 ways to create PIN codes** for your guests and family members. Choose from several PIN code validity durations to manage access for different users.

a) If you are away from your property, generate PIN codes on the go with our unique algoPIN™ technology:
1. On the igloohome mobile app, tap on the ◁ icon.
2. Tap on **[+Access].**
3. Select the access type from the list on the screen.
4. Fill in the required fields.
5. Select **[algoPIN™].**
6. Tap on **[Create PIN code].**

b) If you want to create a customised PIN code, you will need to be within Bluetooth range of the lock with your Bluetooth function turned on:
1. On the igloohome mobile app, tap on the ◁ icon.
2. Tap on **[+Access].**
3. Select the access type from the list on the screen.
4. Fill in the required fields.
5. Select **[Bluetooth].**
6. Tap on **[Create PIN code].**

Important:
All PIN codes generated by algoPIN™ technology have activation periods.
If they are not used within the period, the PIN codes will be considered invalid.

One-Time & Permanent PIN Codes – 24hrs of being generated
I.e. Generated at 1900hrs today, must be used by 1900hrs tomorrow to activate.

Duration & Recurring PIN Codes – 24hrs from the start date and time of its validity period
I.e. Created for 1900hrs on 1 Jan, must be used from 1900hrs – 2000hrs on 1 Jan to activate.

2 Create Guest Bluetooth Keys

Allow guests and family members to use their smartphones to unlock the door. When you issue a Bluetooth key, you get real-time updates on who has accessed your property.

1. On the igloohome mobile app, tap on the ◁ .
2. Tap on **[+Access].**
3. Select **[Bluetooth Key].**
4. Fill in the required fields.
5. Tap on **[Create Bluetooth Key].**
6. Tap on **[Share].**

Your guest can either scan the unique QR code shown on your screen, or you may share the link via your preferred communication method (Text, Email, WhatsApp, Facebook Messenger etc.) to claim the Bluetooth key.

Your guest will either need to download the igloohome mobile app and register for an account or claim the Bluetooth key with their existing igloohome account.

Important:
All Bluetooth keys must be claimed **within 1 hour** of it being generated. If they are unclaimed within the period, the keys will be considered invalid.
I.e. Generated at 1900hrs today, must be claimed by guest by 2000hrs today.

Bluetooth keys can be revoked by lock owner anytime.

Manage Ecosystem Products via the app

1 **Keypad**

a) Pair the Keypad to your account

Before linking the Keypad to a lock, you need to add the device to your account:
*Please ensure you are within Bluetooth range of the Keypad and your Bluetooth function is turned on.

> 1. Tap on ☰ and select **[Add and manage].**
> 2. Select **[Manage Keypads].**
> 3. Tap the **[+]** icon located on the top right of the screen, or tap the **[Add Keypad]** button located on the bottom of the screen.
> 4. Follow the instructions on the screen.

b) Link the Keypad to a lock

*Please ensure you are within Bluetooth range of the lock and Keypad and your Bluetooth function is turned on.

> 1. Tap on ☰ and select **[Add and manage].**
> 2. Select **[Manage Keypads].**
> 3. Select the Key Fob you want to link.
> 4. Follow the instructions on the screen.

View the full Keypad User Guide

2 **Key Fob**

a) Pair the Key Fob to your account

Before linking the Key Fob to a lock, you need to add the device to your account:
*Please ensure you are within Bluetooth range of the Key Fob and your Bluetooth function is turned on.

     1. Tap on ☰ and select **[Add and manage].**
     2. Select **[Manage Key Fobs].**
     3. Tap the **[+]** icon located on the top right of the screen, or tap the **[Add Key Fob]** button located on the bottom of the screen.
     4. Follow the instructions on the screen.

b) Link the Key Fob to a lock

*Please ensure you are within Bluetooth range of the lock and Key Fob and your Bluetooth function is turned on.

     1. Tap on ☰ and select **[Add and manage].**
     2. Select **[Manage Key Fobs].**
     3. Select the Key Fob you want to link.
     4. Follow the instructions on the screen.

View the full Key Fob User Guide

3 **Bridge**

a) Link the Bridge to a lock or other ecosystem products

      1. Tap on ≡ and select **[Add and manage].**

      2. Tap **[Bridges].**

      3. Select the Bridge you want to link your lock to.

      4. Tap **[Linked locks and devices].**

      5. Tap the **[+]** icon located on the top right of the screen.

      6. Follow the instructions on the screen.

b) Unlink the Bridge from a lock or other ecosystem products

      1. Tap on ≡ and select **[Add and manage].**

      2. Tap **[Bridges].**

      3. Select the Bridge you want to unlink from.

      4. Tap **[Linked locks and devices].**

      5. Tap ⊘ next to the selected lock or ecosystem product you want unlinked.

View the full Bridge User Guide.

Manage Lock Features

Auto Lock	You can configure the duration before Auto Lock is triggered: ***Please ensure you are within Bluetooth range of the lock and your Bluetooth function is turned on.** 1. On your igloohome app, tap on ⚙. 2. Select **[Auto Lock Timer]** 3. Select from the list of preset durations, or customise the number of seconds, or choose to never automatically lock. 4. Tap **[Apply].** If you choose to never automatically lock, you may wish to perform a manual relock: Hold the 🔓 on the keypad for 3 seconds. The LED indicator will flash green and you'll hear a long beep for successful relocking.
Security Lockout	You can configure the number of attempts before the Security Lockout mode is enabled: ***Please ensure you are within Bluetooth range of the lock and your Bluetooth function is turned on.** 1. On your igloohome app, tap on ⚙. 2. Select **[Security Lockout].** 3. Select the number of attempts from 1 to 10, or choose to deactivate this function completely. 4. Tap **[Apply].** Once this is set, the lockout will be triggered after you exceed the number of attempts set. Your lock will reject any further unlocking attempts via the same mode you used. You can disable it by trying another valid access mode. <table><tr><th>Triggered</th><th>Security Alarm</th><th>Security Lockout</th></tr><tr><td>1st Time</td><td>30 Sec</td><td>1 Min</td></tr><tr><td>2nd Time</td><td>60 Sec</td><td>5 Min</td></tr><tr><td>3rd and Consecutive Time</td><td>90 Sec</td><td>10 Min</td></tr></table>
Low Battery Alert	N.A.

Tamper Alarm	N.A.
Intrusion Alarm	N.A.
Obstruction Alarm	N.A.
Emergency Jumpstart	1. Hold the 9V battery against the jumpstart contact points. 2. The lock will sound off a series of beeps and the keypad will light up. 3. Maintaining the same position with the battery and lock's contact points, enter a valid PIN code, followed by 🔒 to unlock.
Decoy PIN Code	1. Key in up to 8 random digits before your actual PIN code, followed by 🔒 to unlock.
Privacy Mode	1. Hold the multi-function button on your lock for 3 seconds while it is in 'locked' state i.e. bolt tongue is extended.
Quiet Unlock	To mute audio indicators when unlocking: 1. Tap 🔒 before entering your PIN code / scanning your RIFD credential / using your fingerprint. You will have to perform the same step every time you wish to activate Quiet Unlock. You will not be able to mute audio indicators if this is performed when the lock is in 'unlocked' state i.e. bolt tongue is retracted.
Volume Control	To configure the volume of your lock: ***Please ensure you are within Bluetooth range of the lock and your Bluetooth function is turned on.** 1. On your igloohome app, tap on ⚙. 2. Select **[Volume].** 3. Select the volume level from 0 to 5 (softest to loudest). 4. Tap **[Apply].**

Manage Lock Settings

Delete Lock	To delete a lock from your account, you will need to unpair the device: ***Please ensure you are within Bluetooth range of the lock and your Bluetooth function is turned on.** 1. On your igloohome app, tap on ⚙. 2. Select **[Delete Lock].** 3. Follow the instructions shown on the pop-up and tap **[Ok].**
Delete All PIN Codes	To delete all PIN codes created for a specific lock: ***Please ensure you are within Bluetooth range of the lock and your Bluetooth function is turned on.** 1. On your igloohome app, tap on ⚙. 2. Select **[Delete All PIN Codes].** 3. Follow the instructions shown on the pop-up and tap **[Ok].**
Hard Reset / Unpair	To perform a hard reset: 1. Ensure the lock is in 'unlocked' state i.e. bolt tongue is retracted. 2. Delete the lock from your app. 3. Press ↩ and the **[R]** button together for 3 seconds. 4. You will hear 3 slow descending tones upon successful reset.
Lock Name	To change the name of your lock: 1. On your igloohome app, tap on ⚙. 2. Select **[Lock Name].** 3. Enter the new name of your lock. 4. Tap **[Submit].**
Finding your lock's Bluetooth ID	Every lock has a unique Bluetooth ID. Should you need the ID for support purposes, find it by: 1. On your igloohome app, tap on ⚙. 2. Located on the top of the screen
Sync	We recommend syncing your lock to your account every 3 months for optimal product experience. Syncing the lock to your account helps you stay up-to-date with the lock's battery levels and activity logs. **Note:** This may take up to 5 minutes depending on how often you sync the lock with your account. To do this: 1. On your igloohome app, tap on ⚙. 2. Tap the **[Sync]** button located underneath the battery status.

View Activity Logs

One of the biggest perks of having a smart lock!
You can keep track of all lock activities to ensure you're letting the right ones in.

      1. On your igloohome app, tap on ☰.

You will see all PIN code activities from when you last synced the lock with your account, and all Bluetooth key access.

To update all PIN code activity logs:

*Please ensure you are within Bluetooth range of the lock and your Bluetooth function is turned on.

      1. On your igloohome app, tap on ☰.
      2. Tap the **[Sync]** button located at the top of the screen.

Note:
This may take up to 5 minutes depending on how often you sync the lock with your account.

Emergency Jumpstart

1 9V Jumpstart Feature

1. Touch and hold the battery contacts against the 9V jumpstart pin on the lock and you will hear a series of beeps and the keypad will light up.

2. While holding the 9V battery to the jumpstart, key in your PIN code on the keypad followed by the 'Unlock' icon
⚠ Please ensure terminals of the 9V battery are in contact with the Jump Start contact points of the lock for **2 seconds** to activate your Deadbolt 2S.

Physical Keys

1 Unlocking Orientation

1. Insert the provided physcial key horizontally.
2. Turn the key in an anticlockwise direction to unlock.
3. To remove key, turn the key back to clockwise direction.
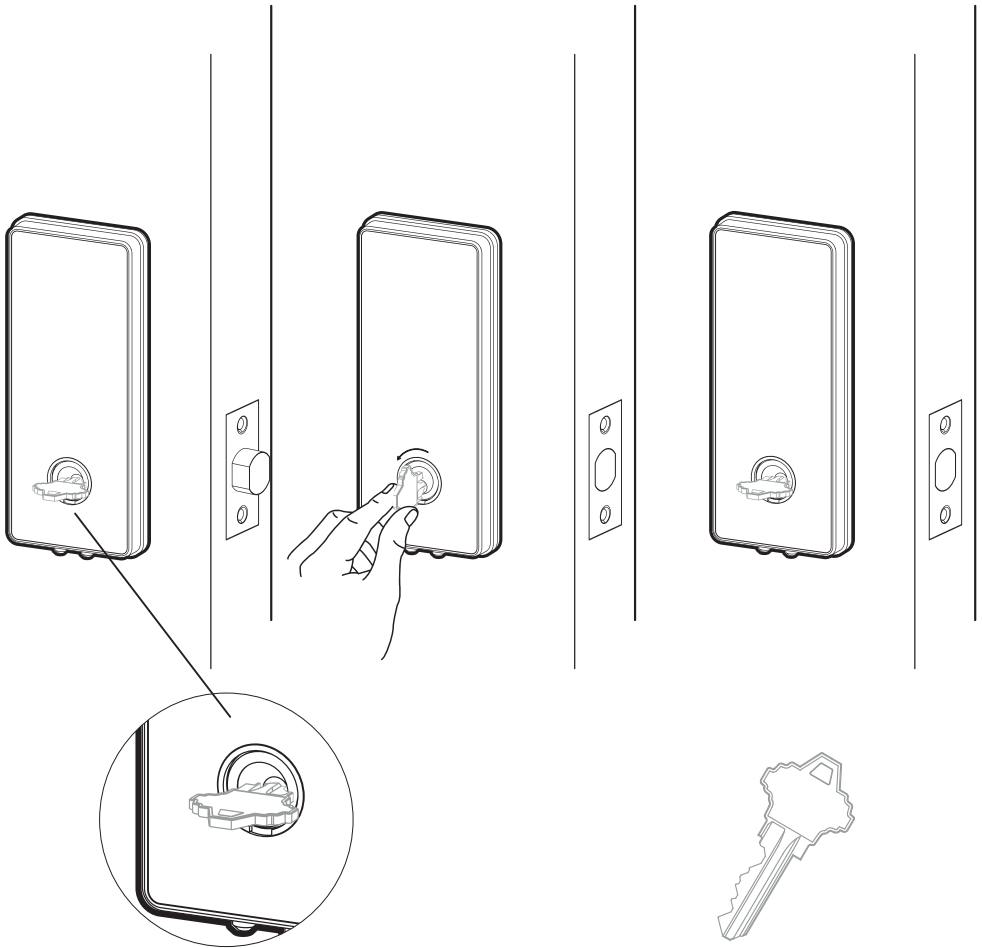

⚠ Physical keys can only be inserted and
removed in this exact same position.

Connect with Airbnb

① Connect with Airbnb

Airbnb Connect automates the generation of PIN codes for your Airbnb guests based on their approved reservations. It costs USD$4.99 per month, but is currently on free trial.

Here are the steps to activate Airbnb Connect

Step 1: Connect to your Airbnb

Under **[Account Settings]**, select **[Connect with Airbnb]**

Step 2: Connect to Airbnb listings

Under **[Reservations]**, click the **[Add]** icon to select a home to connect to.
Select Airbnb Listing and PIN Time to associate.

Note:
• Emails with PIN code will be sent to the guest between 1 to 48 hours before
  check-in time (configurable).
• PINs will only be valid between the check-in and check-out times.

Step 3: Change Check-in and Check-out time

Under **[Configuration]**, select **[Manage Homes]** followed by the listing to view or edit its details.

Notes:
• If the access mail has not been sent, changing your check-in/check-out time via the app modifies the start and end time of the PIN codes to be shared with your guest.
• If the access mail has been sent, changing these details will only affect the next reservation.
• Changing these details on the igloohome app does not update the check-in/check-out time on the listing on the Airbnb website.

② Disconnect Airbnb

Should you prefer to generate PIN codes for your guests manually, you may disconnect your Airbnb listing from the igloohome home listing with the steps below.

1. Under **[Reservations]**, disconnect all the listings (if any).

2. Under **[Account Settings]**, select **[Disconnect with Airbnb]**.

Should you wish to completely disconnect your Airbnb account from your igloohome account, make sure that all your Airbnb listings have been disconnected in the above step, then go to:

Airbnb Host Website > Connected Apps > Select igloohome to disconnect

Audio and LED Indications

Actions	Indications
Bluetooth Connection	'Unlock' icon flashes Blue
Successfully Unlocked	4 fast ascending tones after unlocked
Successfully Locked	1 long beep after Deadbolt 2S is locked
Incorrect PIN	4 short beeps
Deleted PIN	3 sets of 4 short beeps
Obstruction Alarm	6 sets of 4 short beeps
Keypad Disabled Mode Activated	Very long beep
Keypad Disabled Mode Deactivated	2 short beeps
Keypad Security Lockout Alarm	Low-high siren for 30 /60 / 90 seconds
Keypad Security Lockout Deactivated	2 long beeps
Low Battery Alert	3 fast descending tones when keypad is woken up
Tamper Alarm	Keep long beep
Hard Reset / Unpair	4 slow descending tones

Integrations

SmartThings

This lock is supported on SmartThings. To learn how to use your smart lock with SmartThings visit **igloohome.co/integrations/smartthings**

View the full SmartThings FAQ

Troubleshoot

The lock is not responding at all.

- The lock's battery is flat.
- Use an Alkaline 9V Battery to jumpstart the lock and unlock the lock to replace the batteries once you are able to access the battery compartment.

The deadbolt keypad flashes when I activate the keypad.

- If the keypad flashes once, the Security Lockout is triggered.
- If the keypad flashes twice, the Keypad Disabled Mode is activated.
- Refer to page 31 for details.

I tried to use a 9V Battery to jump start the lock but was unable to.

- Please ensure terminals of the 9V Battery are in contact with the jumpstart contact points of the lock for 2 seconds to activate the lock.
- The 9V Battery terminals must be in constant contact with the lock 9V contact pins while unlocking it with PIN code or Bluetooth.

The deadbolt is locking when it is supposed to unlock or unlock when it is supposed to lock.

- Check the LH/RH toggle and ensure that it is at the correct side.
- Refer to page 9 for details.

I have generated my PINs from the app but it doesn't work.

- Do a Bluetooth Unlock or sync and try again.
- Make sure that the generated PIN codes are activated within the activation period before it expires.

Auto lock is not working.

- Check if the Relock Sensor is installed correctly.
- Check if Auto Lock is switched on in the mobile app.
- Check if Keypad Disabled Mode or Passage Mode is deactivated.

My lock gives a 3 descending tones every time I activate the keypad.

- The battery is low in battery.
- Unlock the lock to replace the batteries once you are able to access the battery compartment.

I can't scan the QR sticker as it's worned out.

- Use the spare QR sticker that is provided in the Deadbolt 2S box.

The lock is beeping loudly continuously and none of the functions work.

- The tamper alarm is triggered.
- Please ensure that cable between the front and back body are well connected.
